

Annual Meeting Attachment 9

Pet Committee Report

8/7/2016

The flag on the lower meadow has been moved as requested. A new flag still needs to be purchased, but the old one will do for now.

In the coming months, we will be looking into improvements to the dog run to make the fence more secure and to possibly purchasing a couple of light weight, weather resistant chairs so that there is a comfortable place for people to rest while their dog or dogs play.

I spoke about how diverse our population of dogs is in the park and we have all done a great job, even if sometimes a bit difficult, at keeping the peace between humans and between dogs. Lots of pets were mentioned and used in examples of what we see every day, from those that just mozy along to those little ones that yap their way into our hearts to those that stand their ground and won't budge until they want to. All said with love and a smile.
