

WEBSITE COMMITTEE
August 25, 2016

Website Committee Mission Statement:

The purpose of the Website Committee is to help create and maintain a site where all DBLA leaseholders can easily access important DBLA documents, including but not limited to CC&Rs, By Laws, Rules and financials. It is also meant to be a site where leaseholders can get quick and easy access to information concerning park-wide updates, activities and events, special classes conducted at DBR, as well as local information.

Website Committee Best Practices:

- As members of the website committee we will be open and receptive to any comments or suggestions concerning its content and ease of navigation. All such input will be discussed during committee meetings.
- The committee will strive to keep the website content fresh and meaningful: adding, changing or deleting content as necessary.
- The committee will monitor site visitor records on a regular basis and look for any unusual activity which might indicate a security breach.
- The login and/or password information is to be changed as needed.
