

OFFICE MANAGER'S REPORT

04/28/17

This winter has been long and cold with not too much excitement to report. I have replaced the office safe so we don't need a 5 lb weight and a butter knife to open it anymore and the combination can easily be changed. The office computer has been replaced and the old one cleaned out and give to Barb as an upgrade.

After looking into a laundry card payment system and a change machine and deciding the cost would outweigh the benefit, I have purchased a small change rolling machine that will roll 4 quarter rolls at a time. Not only does this save Barb and my arthritic hands, I am able to multi task while rolling quarters.

SPEED AWARENESS: Barb and I have been tasked with providing gentle and I hope sometimes humorous reminders for everyone to slow down and stay aware of the 5 mph speed limit. We are working with the knowledge that the park is filled with community minded, intelligent women who know better and just need a gentle reminder to SLOW the HECK down.
