

ALRC – Report BOD Meeting August 25, 2017

Our members are Loretta Date, Jackie Lanum, Gail Young & Lin Makela.

ALRC has been meeting weekly since May 30. We have issued permits for ten (10) ALRC projects this month and assisted Leaseholders with information for several potential future projects. These projects include addition of gutters/rainbarrels, skirting, pavers, Rubbermaids, ramps and safety glass in place of balusters on decks. You can track all of these actions weekly from the information in our Meeting Minutes and the Open Permits List. The Open Permits List is on the reverse side of the Minutes and shows status of all ALRC permits currently in process. This information is posted weekly on the ALRC bulletin board in the mail area and all Board members and the Park Manager receive a hard copy in their Board boxes in the office after every ALRC meeting.

We meet weekly on Tuesdays at 10:30 AM in the clubhouse office area. All meetings are open to residents and we encourage leaseholders to attend if they have questions regarding a planned project or ALRC in general.
