

Green Team BOD Report—August 25, 2017

We are proud the residents are giving us so much recycling. And you all are clearly having fun—recycling those cardboard boxes from all the packages you're getting—and the partying...all those beer and wine bottles are giving us some heavy lifting. We are gonna' be so buff by the time summers over you won't recognize us! Some of you may want to save some money, cancel your Y membership and join our team!

Mary will review us with a few do's & don'ts reminders. Mary, "Please remove bottle and jar caps."

We've had one meeting since the annual meeting during which we focused on what we can accomplish in the remaining season. We will be bringing you a film on Tuesday, Sept 12, at 6pm. Mark your calendars: it's called Drying for Freedom—clearly a big box-office hit even though it only last an hour. Please come see it in preparation for the discussion at the September Work Session where we will have an agenda item.

We have placed the Forest Field Day notebook we showed you at the Annual Meeting on the bookshelf in the office lounge area just to the left of the TV. A lot of work went into it and there is a lot of information there so please peruse it at your leisure but treat it like the reference book it is, and don't remove it from the area. Green Teams of the future will need it.

As late in the summer season as it is to put new items on our agenda, sometimes things come up that require attention—and so we will be addressing the dumping of debris and other items over the sides of the storage area parking lot and the effects on the trees and the drainage water that runs North from there. We hope to focus on positive solutions in the discussion at our next meeting of Tuesday, August 29. The meeting is at 3 pm—an earlier than usual time so Barb can be present. As usual, everyone is invited to come and participate.
