

25Aug2017 Safety Team report to BOD

The Safety/CERT shed rehab is progressing – new fascia boards are up, shed is caulked and partially painted. TNT, Kosha, Michele, Jackie L, Shirl the Girl, Bonnie DB and myself have been working on it. Dave has been asked to replace the door, and he found a used one and has already installed it. Any Safety/CERT person is welcome to work on it at any time.

The Safety Team will be participating in the DBR Shakeout exercise on September 22nd. We are nearly all CERT members, and those of us that are CERT will need to function as CERT only that day. But we will need to find a way to coordinate “spontaneous volunteers” that will want to be helpful in a disaster. We will do our best to handle volunteers who will A) shut off the Park’s water shutoff valves, including up across Highway 101 at the well and the water tank, B) check propane tanks all over the park and ensure they are shut off, and C) help transport the injured to the medical treatment area, help the Medical Team, and help secure any loose pets. We have a lot of work to do ahead of the Shakeout!

Our next meeting is Monday August 28th at 10 AM in the office. Everyone is welcome to attend.

Mary Harrison

Safety Team Leader
