

Web Team Report 4/27/18

Recent projects

Calendar

All of the event information on the site has been moved to the calendar page, and Melinda has taken over maintenance of that calendar. We'd like to ask everyone, especially those who schedule park events, to let Melinda know if you notice any schedule information that is missing or incorrect, so that she can fix it right away.

Organization and navigation

- Organized home page into sections to show how the site is organized
- Applied consistent global navigation (tab bar) to every page on the site
- Added an indicator (bold) to show which section the user is currently in
- Created a landing page for each section
- Created consistent local navigation (side bar) for most sections
- Developed and applied a standard template for individual pages in most sections

For those who are interested, we've posted an excerpt from a classic web usability book called "Don't Make Me Think" on the Web Team page which discusses why consistent navigation is so important to the user experience.

Current projects

Organization and navigation

Apply consistent layout and navigation to pages in the Groups section, and work with committee chairs to update content.

Recently posted

- Posted a copy of the Reserve Study in the Documents section
- Posted links to Free and Clear laundry products in the Facilities section

Amazon affiliate program

Together we raised \$1062 for DBR in 2017, and we've already earned \$161 this year.
