

OFFICE MANAGER REPORT 06/29/18

Septic Fundraising is going fantastic \$8,953.50 raised so far.

Someone graciously took it upon themselves to pull one of the plants out of the planter in the office and throw it in the compost bin. I know this because I followed the trail of dirt from the office to the compost bin. Does anyone have an indoor plant they would like to donate for the planter?

There have been some questions regarding pre-paying your assessment. The assessment will show up on your statement with your maintenance fee and electric and will be included in your balance due. Any advance payments you make will add to the credit on your account and when the assessment is officially billed out your credit will decrease.
