

Facilities Announcements
BOD Work Session
Oct. 4, 2018

Septic Update:

ADC Engineering has yet to hear back from Wa. Dept. of Health regarding our septic plan. They were going to follow up with DOH this week and will let us know as soon as they hear something.

Shop Lockers:

There are 3 lockers in the shop with padlocks on them. The lockers are to be used for projects in process, and are not for long term storage of personal items. If you have items stored in a locker, please contact me.

If you would like a key to the shop, you must attend a shop class. We will schedule winter classes if there is interest. Please contact me if you would like to attend.

Garden Shed:

I have ordered combo locks for the 2 garden sheds, so you will no longer need a leaseholder key to access them. The code will be the same as Radclyffe: 3150

Sewer Line Inspection:

Brother's Plumbing will be using a camera to inspect our sewer lines on Tuesday, Oct. 9th.

Please do not allow water to go down the drains in your home after 9:00am on that day. We will start on 6th street and proceed to 5th, 4th, etc. You can use water once we have completed the inspection on your street.

You may use the restrooms at the pool and the lower restroom facility during the inspection.

I am expecting the inspection to take at least 4 hours to complete. I will be moving my truck to the street we are working on to help you identify our location and progress.

I will send out a reminder broadcast on Monday Oct. 8th, and personally notify all residents who do not receive broadcasts.

Barb Gilger – Facilities Manager
