Green Team

The Green Team is continuing to devote time and energy to the recycling effort. Updated information on the Jefferson County Recycling Center's parameters for what they will accept and what they don't want have been noted on the white board in the office, and updated flyers will be offered at the meeting today. Please keep in mind that their new motto is "When in doubt, throw it out!". It is very important that they keep their waste streams free of trash and items that their buyers will not accept – it affects what price they are able to get for the waste stream, and in fact whether they can even FIND a buyer for it. It is a buyer's market in that respect; Jefferson County can't set the terms – they have to meet the terms of the buyer.
