Safety Team

The Safety Team has taken on the role of supporting CERT 6 – our very own DBR-based Community Emergency Response Team. Safety has purchased critical items for the park in the past, such as defibrillators (with generous donations), equipment and supplies for CERT 6, the CERT shed up in the laundry parking lot, and emergency water purification items. The Team has arranged for speakers/educators to come to DBR – such as the Clallam County Fire Department District 3's presentation on the Cascadia faultline, fire extinguisher training, and Jim Buck's presentation on camping in your home (following a major quake). The Team will continue to do its best to educate DBR members on what they need to do for emergency preparedness, and what the Safety team and CERT 6 can do for us. Safety will continue to stress that we all need to take responsibility for our own preparedness.
