

Septic Task Force update for work session

Using an analogy of a sit-down dinner party, serving chicken marsala and Oprah as a guest, Marianne explained the quantitative theories of critical path and backwards mapping. She tied it together as to where the septic task force is after waiting 4 months for 3 bids. She explained that because it is so late in the season the task force will present its findings at the next work session and disband afterwards having fulfilled the charge of the BOD.
