

ALRC Monthly Report for DBR BOD meeting March 24, 2022

We currently have 13 active ALRC requests and 4 closures.

We have continued to review the guidelines. An issue was discussed that there are multiple heat pumps installed without obtaining ALRC requests. Plan of action requesting all permits to be sent in retroactively to ALRC will be discussed by our board liaison at the BOD meeting this week.

This month the ALRC reviewed setback requirements and conflicts seen in current and revision for guidelines. Revised guidelines will reflect resolution on these conflicts.

The ALRC members are valued for their dedication and teamworking skills, I continue to be in awe of the work they are doing and the work they are challenged to do for DBR.

Respectfully submitted,

Karen Kittlehurst, co-chair ALRC committee
