

ALRC Monthly Report for DBR BOD meeting October 27, 2022

ALRC members continue to work diligently on permits, measurements and closing on permits.

In **October** we had:

New requests: 19 new requests

Monitoring ranged 30 to now 21 open permits

Closed and filed 14- with 2 left to process

Closed/processed 1 lot requests for measurements- 3 open requests.

An on-site training for ALRC members how to do lot measurements had to be postponed until April or May next year.

ALRC maintains a "Parking Lot List" which is a method of maintaining and keeping all issues and ideas until further discussion and closure. Several items in this list will be for Standards revisions in the spring.

A Landscape/Garden Task Force with Judith, Mary and Gillian volunteering will meet to expand/change a section in the standards on Landscaping/Garden. Plans to make a proposal for further discussion by spring for the Standards.

Respectfully submitted,

Karen Kittlehurst, Chair ALRC Committee
