DBR Fruits Agenda

DBR Fruits wants to start the third phase of our orchard. DBR Fruits will prepare a new West side swath parallel to the existing East side (Blueberry Hill). We plan raspberries or other fruits. Our plan includes the following steps:

- (1) See that we aren't interfering with the septic leach field lines.
- (2) Hire landscapers to complete the feed irrigation/drip lines to the newly planted fruit trees, and extend to cover East side's new berry or(?) patch.
- (3) Sod cutter to remove sod and stack where park management suggests.
- (4) Test soil then treat if necessary.
- (5) Find and use wood chips to place for fall/winter/spring planting.
- (6) Meet to discuss the various types of raspberries and other winter/spring annuals that might work great in the swath.

Attached:

1. schematic of the leach field.
2. RFA.
3. incomplete drawing. 4. request sheet added.

NEEDED

- (1) Management to provide beginning West line as not to damage or migrate into leach field.
