

LARC Monthly Report for DBWC BOD meeting May 25, 2023

LARC members completed the revisions for the Standards and the Design Forms that were submitted to the Document Review Committee (Kate, Jeri and Judith Wright) and as of today, submitted to the BOD!

The main addition on the Greenhouse was done by Judith Musick, thank you. I would like to thank all those who participated in this effort in the past 6 months, that includes the LARC members, BOD, Barb, and Document Review Committee.

A few people actually took two weeks of vacation from LARC this month. The exception during the two weeks were Judith, Jolda, myself and Kena (our honorary LARC member this past month), and Barb (patiently working to find our documents) while we kept working with the Document Review Committee. We are grateful to Kena for the new Design Form and the Park Model supplement. It has been amazing to work with such a dedicated group.

The following reflect for the month:

New requests: 6

Monitoring: 22 (last month 13 letters were sent to update the status on permits, 5 which have now been removed from the list, 8 are still expected to respond).

Lot Measures completed: 1

Sincerely,

Karen Kittlehurst, chair of the LARC committee

Respectfully submitted,
Karen Kittlehurst, Chair ALRC Committee
