

LARC Minutes__07.02.2025

Members: Sherri Musgrove, Deb Wertz, Marianne Nolte, Gale Swafford, Julie Aegerter

Notified Absence: Michelle Patton, Joida Reed

Office Staff: Julia

Facilities Manager:

BOD Liaisons: Kate Blagdon, Kena Warrick

Guests:

LARC Requests: RFA that a 3rd Shed be allowed on site if used for Emergency Storage.

Discussion: We considered plastic sheds, their suitability, the likely hood that people would also use them for other things, and where they would be placed. A suggestion was made to follow CERT's lead and use covered galvanized garbage cans.

All present agreed to the following decision:

1. LARC Recommends that 33 gallon galvanized steel trash bins w/lids be used to store 90 days of food. They will be cost effective and prevent rodents from getting to food (unlike rubbermaid bins).
2. LARC standards pertaining to location still apply. (2.5 ft clearance form adjacent lots and 3 ft from back of lot.

Permits Submitted for Closure:

1. 202 site 54 Sherri Poindexter (Julie & Gail)
2. 224 site 21 Barb Gilger. (Marianne & Deb)
3. 214 site 107 Jerri Soloman (Deb & Sherri)

Two LARC Committee members complete the close out review in person and validate that the work was completed per the LARC Request.

Next Meeting: 07.08.2025 Members agreed that they would still meet in order discuss standards if there were not any requests to consider.
